

MedECC Special Report on interlinking climate change with Water-Energy-Food-Ecosystems (WEFE) nexus

List of Coordinators, Coordinating Lead Authors, Lead Authors, and Contributing Authors

An open call for self-nominations of authors was initiated on 20th April 2021 and terminated on 15th May 2021. The MedECC Scientific Steering Committee appointed the Coordinating Lead Authors (CLA) and Lead Authors (LA) taking into account a range of scientific, technical and socio-economic views and backgrounds, as well as geographical and gender balance. CLAs and LAs are responsible for the content of each chapter and draft specific sections based on their area of expertise. The CLAs oversee the process and are responsible for the coordination of the chapters. The LAs work in teams to produce the content of the chapter on the basis of the best scientific, technical and socio-economic information available. The CLAs and LAs may enlist other experts as Contributing Authors (CAs) to assist with their work. The MedECC Special Report on interlinking climate change with Water-Energy-Food-Ecosystems (WEFE) nexus was drafted by 60 authors (27 women and 33 men) from 15 countries, with the following proportions by region: 70% of authors from northern Mediterranean Countries, 22% of authors from southern and eastern Mediterranean Countries, 8% of authors from countries outside the Mediterranean region.

Report Coordinators:

Mohamed ABDEL MONEM (FAO Regional Office for the Near East and North Africa (RNE), Egypt)

Philippe DROBINSKI (Institut Pierre Simon Laplace, Ecole Polytechnique, Energy4Climate Interdisciplinary Center, France)

Marta Guadalupe RIVERA FERRE (INGENIO - Centre of the Spanish National Research Council and Polytechnic University of Valencia (CSIC-UPV), Spain)

[Chapter 1: Introduction: Water-Energy-Food-Ecosystems \(WEFE\) nexus concept in the Mediterranean area](#)

Coordinating Lead Authors:

Mohamed ABDEL MONEM (FAO Regional Office for the Near East and North Africa (RNE), Egypt)

Philippe DROBINSKI (Institut Pierre Simon Laplace, Ecole Polytechnique, Energy4Climate Interdisciplinary Center, France)

Marta Guadalupe RIVERA FERRE (INGENIO - Centre of the Spanish National Research Council and Polytechnic University of Valencia (CSIC-UPV), Spain)

Fabio SANTERAMO (University of Foggia, Italy)

Chapter 2: Drivers of change and their impacts on WEFE in the Mediterranean region

Coordinating Lead Authors:
